

Certificate OF Analysis
Calcium Propionate

TEST PARAMETER	SPECIFICATION
Appearance	White Powder
Arsenic PPM PPM	0-3
Assy on Dry WT. %	98-100
Fluoride PPM PPM	0-10
Heavy Metals PPM PPM	0-10
Insoluble Matter %	0-0.3
Iron PPM PPM	0-50
Lead Metal PPM	0-5
Magnesium	To pass the test
Moisture %	0-4
PH_10%	7-9
Solubility	Clear solution

Storage : Store in cool and dry place away from the sunlight

Packaging : 20 kg

Self life : 12 mths from manufacturing date

Usage : Calcium Propionate is used as Mould Inhibitor in bread and other bakery confectionary products.
